

# Residential, Commercial and Industrial Technical Work Group Teleconference Meeting #5

July 10, 2006

# Today's Agenda

- Call to order
- Roll Call of Technical Work Group (TWG) members
- Review and approval of last call summary (TWG Call #4)
- Follow up on review and discussion of the draft North Carolina greenhouse gas (GHG) emissions inventory and forecast for the Residential, Commercial and Industrial Sectors
- Continued discussion of priorities for elaboration and analysis of RCI Options
- Introduction of format for Mitigation Option Descriptions
- Comments from the Public
- Proposed agenda items for next meeting
- Announcements

# NC GHG Emissions

- Inventory and Reference Case Projections 1990-2020
- Concerns from RCI TWG members as discussed at June 29 meeting
  - Do projections include SIPS activities, to reduce local air pollution, that would also reduced GHG emissions?
  - Can results be altered to include recognition of contribution of Ozone Depleting Substances (ODS) to GHG emissions?

# NC GHG Emissions 1990-2020

# Industrial Processes

# Catalog of State Actions: Consolidation

- Refer to handout of revised “Long” Catalog
  - Note updates based on TWG input during 6/6 meeting
  - Will continue to be used as source of information for consolidated options
- “Consolidation of Catalog of North Carolina RCI Options” document
  - Prepared with input from TWG
  - Consolidates previous catalog into 24 options, but includes all options from previous catalog either as single options or as parts of more comprehensive options
  - Additional TWG input on consolidation (changes in existing consolidation, further consolidation) welcome

# Catalog of State Actions: Priorities

- Consideration of Priorities for Further Elaboration/Analysis of RCI Options
  - Results of e-mail ballot sent out by CCS to TWG members (One vote per person per option, 10 votes total per person)
  - Comments on consolidation received with ballots
  - Decisions from June 29 meeting included in memo
  - Discussion of results, and group decisions on options to recommend to CAPAG as “High Priority”
    - Consider further consolidation of options, including inclusion of options receiving less than 5 votes into options already considered “high priority”

# Options Description Template

- Refer to Handout, NC Mitigation Options Description Template
- Provides consistent format for all TWGs to present information on priority mitigation options
- Elements:
  - Option Description, Design
  - Implementation Mechanisms, Related Programs in Place
  - Types of GHG Reductions, Estimated GHG Savings and Costs
  - Key Uncertainties, Additional Benefits and Costs, Feasibility Issues
  - Status of Group Approval, Level of Group Support, Barriers to Consensus

# Public Input, Announcements

- Public Input?
- Announcements?

# Next TWG Call

- Agenda
  - Review of results of CAPAG results meeting relevant to RCI
  - Further review of inventory and forecast (if needed)
  - Further work on setting priorities, consolidation/reorganization if appropriate
  - Begin development of Option Descriptions(?)
- Time and date?
